

Universal USB 3.0 DV Docking Station with Power (Black)

DOCK171

Overview

Create a dual beyond HD video workstation or connect a single 2K monitor with the Universal USB 3.0 DV Docking Station. It delivers integrated power and charging, and it's designed to support multiple host platforms and brands for a broad range of compatibility with peripherals and devices. With five USB 3.0 ports (including one that's high-powered for charging devices and one that's Type-C), plus an Audio In/Out port for speakers, mics, or headphones, it's easy to customise your workstation. The integrated Gigabit Ethernet connection is more secure and faster than most Wi-Fi connections. Charging tips are included so that the dock can power most major laptop brands, and they're all neatly stored within a removable compartment in the dock.

Features

- Dual 2048 x 1152 at 60Hz 24 bpp color video (single 2K 2560 x 1440 at 50Hz HDMI) leveraging the DisplayLink DL-3900 technology
- 19VDC PC laptop power and charging up to 90W
- Removable standalone power and charging tip compartment
- Integrated lock slot accommodates industry-standard security locks
- Wedge design for laptop mounting
- Includes detachable 1-meter USB µB to A host cable
- Includes 120W AC adapter and power connected purple LED light
- Includes detachable 1-meter DC host power and charging cable
