Uninstalling Trend Micro Antivirus Software

Reference OS: Mac OS X 10

1. Extract the **tmsmuninstall.zip** file.
2. Go into **tmsmuninstall** folder, locate the **tmsmuninstall.pkg**, double-click on it to start the uninstallation.

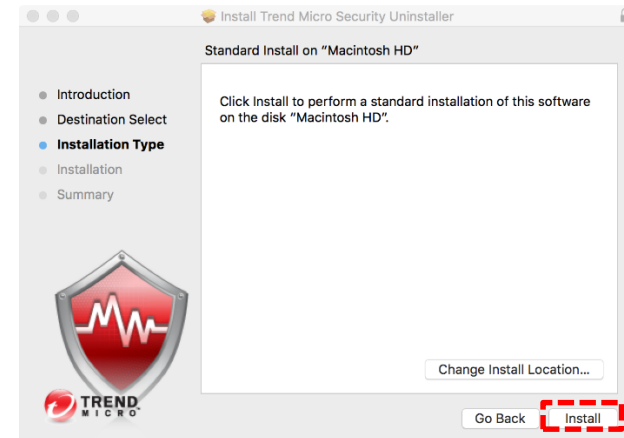

3. You might be prompted for below notification and click on **Continue** to allow the uninstall.

4. At the **Introduction** and **Destination Select** windows, click **Continue** to proceed with the installation.

5. At the **Installation Type** window, click on **Install** and when prompted for the credential, enter your computer **Username** and **Password**, and then click **Install Software**.

6. When the uninstallation was completed successfully, click on **Close** to exit.
