Installing Trend Micro Antivirus Software

Reference OS: Mac OS X 10

1. **Download** and **extract** the **tmsinstall.zip** file.
2. Go into **tmsinstall** folder, locate the **tmsinstall.pkg**, double-click on it to start the installation.

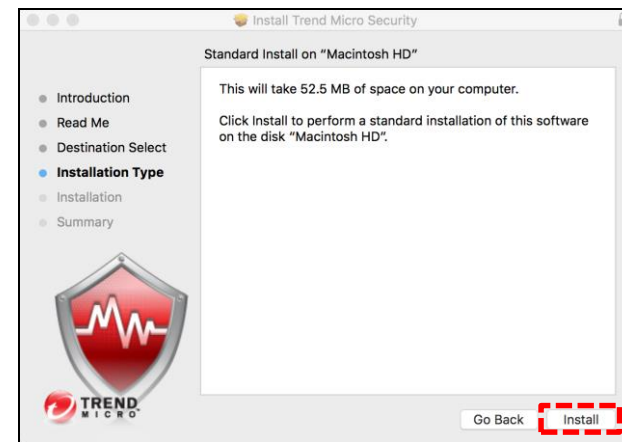

3. You might be prompted for below notification and click on **Continue** to allow the install.

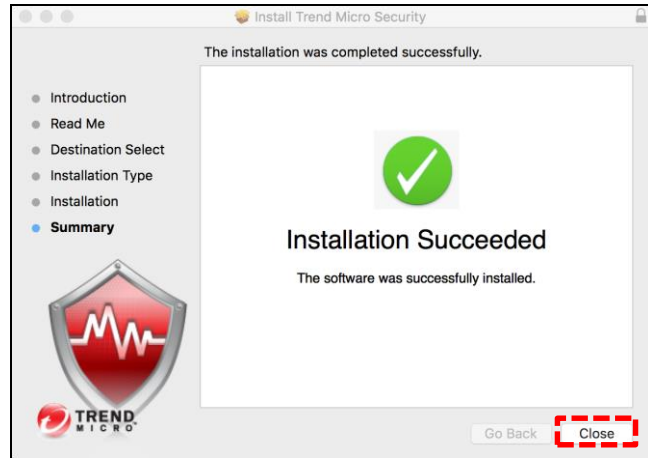

4. At the **Introduction** and **Read Me** windows, click **Continue** to proceed with the installation.

5. At the **Installation Type** window, click on **Install** and when prompted for the credential, enter your computer **Username** and **Password**, and then click **Install Software**.

6. When the installation was completed successfully, click on **Close** to exit.

7. You should have a red Trend Micro icon in the upper right-hand corner of your computer taskbar.
