Connect to **WLAN-SMU** Wireless Network

On

**Android Devices**

Reference Device: Samsung Galaxy S Android 4.2

1. Click on Settings > Wi-Fi and then click on **WLAN-SMU**.

2. Ensure the settings are as follows:

3. Key-in your SMU User ID and Password, and then click on the "**Connect**" button.

   *(Note: Anonymous Identity: staff/faculty key-in "smustf" and student leave it blank)*

4. You are now connected to "**WLAN-SMU**" network.

---

*Example:*

Faculty/Staff: username will be **emilyho**

Student: username will be **emily.ho.2013**
